NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Special Note Regarding Reverse Stock-split

UNLESS OTHERWISE INDICATED, ALL STOCK-BASED AMOUNTS APPEARING IN THIS QUARTERLY REPORT (INCLUDING HISTORICAL AMOUNTS) HAVE BEEN ADJUSTED TO GIVE EFFECT TO THE 1-FOR-200 REVERSE STOCK-SPLIT EFFECTED SEPTEMBER 21, 2016.

1. NATURE OF OPERATIONS

Organization and Nature of Operations

MYnd Analytics, Inc. (“MYnd,” “CNS,” “we,” “us,” “our,” or the “Company”), formerly known as CNS Response Inc., was incorporated in Delaware on March 20, 1987, under the name Age Research, Inc. Prior to January 16, 2007, the Company (then called Strativation, Inc.) was a “shell company” with nominal assets and our sole business was to identify, evaluate and investigate various companies to acquire or with which to merge. On January 16, 2007, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with CNS Response, Inc., a California corporation formed on January 11, 2000 (“CNS California”), and CNS Merger Corporation, a California corporation and the Company’s wholly-owned subsidiary (“MergerCo”) pursuant to which the Company agreed to acquire CNS California in a merger transaction wherein MergerCo would merge with and into CNS California, with CNS California being the surviving corporation (the “Merger”). On March 7, 2007, the Merger closed, CNS California became a wholly-owned subsidiary of the Company, and on the same date the corporate name was changed from Strativation, Inc. to CNS Response, Inc. At the annual meeting held on October 28, 2015, shareholders approved a change in our name from CNS Response, Inc. to MYnd Analytics, Inc. On November 2, 2015, the Company filed an amendment to its Articles of Incorporation which, among other things, effected the name change to MYnd Analytics, Inc.

The Company is a predictive analytics company that has developed a decision support tool to help physicians reduce trial and error treatment in mental health and provide more personalized care to patients. The Company provides objective clinical decision support to healthcare providers for the personalized treatment of behavioral disorders, including depression, anxiety, bipolar disorder, post-traumatic stress disorder (“PTSD”) and other non-psychotic disorders. The Company uses its proprietary neurometric platform, PEER Online, to generate Psychiatric EEG Evaluation Registry (“PEER”) Reports to predict the likelihood of response by an individual to a range of medications prescribed for the treatment of behavioral disorders. We will continue to be focused on military personnel and their family members who are suffering from depression, PTSD and mild traumatic brain injury (“mTBI”) through the military and veterans, and Canadian Armed Forces, expand commercially through the payer and self-insured markets, multi-physician and multi-practice provider groups as well as direct to consumer sales and seek to expand our data base in younger adults and adolescents.

The Company acquired the Neuro-Therapy Clinic, Inc. (“NTC”) on January 15, 2008, to provide behavioral health care services. NTC’s operations were discontinued effective September 30, 2012.

At our 2015 Stockholder Meeting, the Company’s stockholders also approved an amendment to amend the Company’s Charter for the purposes of effecting a reverse stock-split of Common Stock at a later time and at any time until the next meeting of the Company’s stockholders which are entitled to vote on such actions, by a ratio of not less than 1-for-10 and not more than 1-for-200, and to authorize the Board to determine, at its discretion, the timing of the amendment and the specific ratio of the reverse stock-split. On August 24, 2016, the Board resolved to execute a 1-for-200 reverse stock-split.

On September 20, 2016, the Company filed a Certificate of Amendment to its Amended and Restated Certificate of Incorporation (the “Amendment”) to (i) effect a 1-for-200 reverse stock-split (“reverse split”) of its common stock, par value \$0.001 per share (the “Common Stock”), effective at 8:00 a.m. Eastern Time on September 21, 2016 (the “Effective Time”). Because the Amendment did not reduce the number of authorized shares of Common Stock, the effect of the Amendment was to increase the number of shares of Common Stock available for issuance relative to the number of shares issued and outstanding.

At the Effective Time, immediately and without further action by the Company’s stockholders, every 200 shares of the Company’s Common Stock issued and outstanding immediately prior to the Effective Time were automatically combined into one share of Common Stock. In the event the reverse split left a stockholder with a fraction of a share, the number of shares due to that stockholder was rounded up. Further, any options, warrants and rights outstanding as of the Effective Time that were subject to adjustment were adjusted in accordance with the terms thereof. These adjustments included, without limitation, changes to the number of shares of Common Stock that would be obtained upon exercise or conversion of such securities, and changes to the applicable exercise or purchase price.

The Aspire Capital Equity Line

On December 6, 2016, the Company, entered into a common stock Purchase agreement (the "Purchase Agreement") with Aspire Capital Fund, LLC ("Aspire Capital") which provides that, upon the terms and subject to the conditions and limitations set forth therein, Aspire Capital is committed to purchase up to an aggregate of \$10.0 million of shares of the Company's common stock over the 30-month term of the Purchase Agreement. Concurrently with entering into the Purchase Agreement, the Company also entered into a registration rights agreement with Aspire Capital (the "Registration Rights Agreement"), pursuant to which the Company maintains an effective registration statement registering the sale of the shares of Common Stock that have and may be issued to Aspire under the Purchase Agreement. Under the Purchase Agreement, on any trading day selected by the Company on which the closing sale price of its Common Stock is equal to or greater than \$0.50 per share, the Company has the right, in its sole discretion, to present Aspire Capital with a purchase notice, directing Aspire Capital (as principal) to purchase up to 50,000 shares of Common Stock per business day, up to \$10.0 million of the Company's common stock in the aggregate at a per share purchase price equal to the lesser of:

- a) the lowest sale price of Common Stock on the purchase date; or
- b) the arithmetic average of the three (3) lowest closing sale prices for Common Stock during the twelve (12) consecutive trading days ending on the trading day immediately preceding the purchase date.

In addition, on any date on which the Company submits a purchase notice to Aspire Capital in an amount equal to 50,000 shares and the closing sale price of the Company's stock is greater than \$0.50 per share, the Company also has the right, in its sole discretion, to present Aspire Capital with a volume-weighted average price purchase notice (each, a "VWAP Purchase Notice") directing Aspire Capital to purchase an amount of stock equal to up to 30% of the aggregate shares of Common Stock traded on its principal market on the next trading day (the "VWAP Purchase Date"), subject to a maximum number of shares the Company may determine. The purchase price per share pursuant to such VWAP Purchase Notice is generally 95% of the volume-weighted average price for Common Stock traded on its principal market on the VWAP Purchase Date.

The purchase price will be adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the period(s) used to compute the Purchase Price. The Company may deliver multiple Purchase Notices and VWAP Purchase Notices to Aspire Capital from time to time during the term of the Purchase Agreement, so long as the most recent purchase has been completed.

The Purchase Agreement provides that the Company and Aspire Capital will not effect any sales under the Purchase Agreement on any purchase date where the closing sale price of the Company's common stock is less than \$0.50. There are no trading volume requirements or restrictions under the Purchase Agreement, and the Company will control the timing and amount of sales of Common Stock to Aspire Capital. Aspire Capital has no right to require any sales by the Company, but is obligated to make purchases from the Company as directed by the Company in accordance with the Purchase Agreement. There are no limitations on use of proceeds, financial or business covenants, restrictions on future fundings, rights of first refusal, participation rights, penalties or liquidated damages in the Purchase Agreement. In consideration for entering into the Purchase Agreement, concurrently with the execution of the Purchase Agreement, the Company issued to Aspire Capital 80,000 shares of Common Stock (the "Commitment Shares"). The Purchase Agreement may be terminated by the Company at any time, at its discretion, without any cost to the Company. Aspire Capital has agreed that neither it nor any of its agents, representatives and affiliates shall engage in any direct or indirect short-selling or hedging of Common Stock during any time prior to the termination of the Purchase Agreement. Any proceeds from the Company received under the Purchase Agreement are expected to be used for working capital and general corporate purposes.

Given the Company's access to \$10 million under the Aspire Purchase Agreement, the Company believes that it will have sufficient cash for its operations, capital equipment purchases, accounts payable and accruals for over a year. However, if the Company is not able to access capital under the Aspire Purchase Agreement for any reason, or from other sources including revenue, strategic partnerships or investors, it will be required to identify other sources of capital to maintain its operations. Our risk factors are described under the heading "Risk Factors" in Part I Item 1A and elsewhere in our Annual Report on Form 10-K and in other reports we file with the SEC.

Liquidity

As the Company seeks to expand and fund operations and begin commercialization of its product, the Company plans to incur expenses of approximately \$5.75 million over the next twelve months. The budget estimate is subject to many variables, some of which are outside of the control of the Company and accordingly, may change.

If we are unable to generate enough working capital from our current financing agreement with Aspire Capital when needed or to secure additional sources of funding, it may be necessary to significantly reduce our current rate of spending, which may include a reduction in our operations, pilot programs and commercialization efforts. These events could prevent us from successfully executing our operating plan

Recent Private Placements

Between September 30, 2016, and December 29, 2016, the Company sold and issued an aggregate of 240,000 shares of its Common Stock, at a per share price of \$6.25, in private placements to 11 accredited investors, for which it received gross cash proceeds of \$1,500,000. Three of the 11 accredited investors were affiliates of the Company and represented 40% of such cash proceeds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC") and are in accordance with accounting principles generally accepted in the United States of America.

Basis of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company, an inactive parent company, and its wholly owned operating subsidiaries CNS California and NTC, which is a dormant company. There were no intercompany transactions to be eliminated on consolidation.

Use of Estimates

The preparation of the unaudited condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expense, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to revenue recognition, doubtful accounts, furniture and equipment, intangible assets, income taxes, valuation of equity instruments, accrued liabilities, contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates.

Cash

The Company deposits its cash with major financial institutions and may at times exceed the federally insured limit of \$250,000. At December 31, 2016 cash exceeds the federally insured limit by \$798,400. The Company believes that the risk of loss is minimal. To date, the Company has not experienced any losses related to cash deposits with financial institutions.

Derivative Liabilities

The Company evaluates all of its agreements to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. For stock-based derivative financial instruments, the Company uses a weighted average Black-Scholes option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date. As of December 31, 2016, the Company did not have any derivative financial instruments.

Fair Value of Financial Instruments

ASC 825-10 defines financial instruments and requires disclosure of the fair value of financial instruments held by the Company. The Company considers the carrying amount of cash, accounts receivable, other receivables, accounts payable and accrued liabilities, to approximate their fair values because of the short period of time between the origination of such instruments and their expected realization.

The Company also analyzes all financial instruments with features of both liabilities and equity under ASC 480-10, ASC 815-10 and ASC 815-40.

The Company adopted ASC 820-10 on January 1, 2008. ASC 820-10 defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosure requirements for fair value measures. As at December 31, 2016, the Company did not identify any assets or liabilities that required presentation on the balance sheet at fair value in accordance with ASC 825-10.

Accounts Receivable

The Company estimates the collectability of customer receivables on an ongoing basis by reviewing past-due invoices and assessing the current creditworthiness of each customer. Allowances are provided for specific receivables deemed to be at risk for collection which as of December 31, 2016 and September 30, 2016 are \$1,200 and \$1,200 respectively.

Furniture and Equipment

Furniture and Equipment, which are recorded at cost, consist of office furniture, equipment and purchased intellectual property which are depreciated, or amortized in the case of the intellectual property, over their estimated useful life on a straight-line basis. The useful life of these assets is estimated to be between three and ten years. Depreciation and amortization on furniture and equipment, intellectual property and intangible assets for the three months ended December 31, 2016 and 2015 was \$8,000 and \$1,400 respectively. Accumulated depreciation and amortization at December 31, 2016 and 2015 was \$84,900 and \$84,000, respectively.

Long-Lived Assets

As required by ASC 350-30 (formerly SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*), the Company reviews the carrying value of its long-lived assets whenever events or changes in circumstances indicate that the historical cost-carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of the asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value. No impairment loss was recorded for the three months ended December 31, 2016 and 2015.

The Company adopted Accounting standards update ("ASU") 2012-02, Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment. The new guidance is intended to reduce the complexity and costs of the annual impairment test for indefinite-lived intangible assets by allowing companies to make a qualitative evaluation about the likelihood of impairment to determine whether it should perform a quantitative impairment test.

Intangible Assets

Costs for software developed for internal use are accounted for through the capitalization of those costs incurred in connection with developing or obtaining internal-use software. Capitalized costs for internal-use software are included in intangible assets in the consolidated balance sheet. Capitalized software development costs are amortized over three years. Costs incurred during the preliminary project along with post-implementation stages of internal use computer software development and costs incurred to maintain existing product offerings are expensed as incurred. The capitalization and ongoing assessment of recoverability of development costs require considerable judgment by management with respect to certain external factors, including, but not limited to, technological and economic feasibility and estimated economic life. At December 31, 2016, the Company had \$80,500 in capitalized software development costs. The Company started amortizing the software over its estimated economic life once it was placed into service in September 2016. For the three month ended December 31, 2016, the capitalized software amortization expense was \$6,700.

On November 23, 2011, the Company acquired intellectual property in the form of transcranial magnetic stimulation (TMS) biomarkers at a cost of \$21,200 which was recorded at cost and is being amortized over its estimated useful life of 10 years on a straight-line basis. Amortization for the three months ended December 31, 2016 and 2015 was \$500 for both periods. Accumulated depreciation on the intellectual property at was \$10,800 and \$8,700 at December 31, 2016 and 2015 respectively.

Accounts Payable

Accounts payable consists of trade payables of which \$284,600 and \$483,900 are for legal services at December 31, 2016 and 2015 respectively.

Accrued Compensation

Accrued compensation consists of accrued vacation pay, accrued bonuses granted by the Board but not paid, and accrued pay due to current and former staff members. The balance includes \$140,400 accrued for two managers and \$203,500 accrued for two officers who voluntarily deferred the cash portion of their salaries to help the Company conserve funds from February 2015 through July 2015. Accrued compensation also includes an accrual of \$250,000 for a tax gross-up on stock awarded to the Chairman of the Company.

Deferred Revenue

Deferred revenue represents revenue collected but not earned as of December 31, 2016 or 2015. This represents a philanthropic grant for the payment of PEER Reports ordered in a clinical trial for a member of the U.S. Military, a veteran or their family members, the cost of which is not covered by other sources. These deferred revenue grant funds total \$45,900 for the periods ending December 31, 2016 and 2015.

Revenues

The Company recognizes revenue on services, being the delivery of PEER Reports to medical providers, in accordance with the Financial Accounting Standards Board ("FASB") ASC No. 605, "Revenue Recognition." In all cases, revenue is recognized when we have persuasive evidence of an arrangement, a determinable fee, when collection is considered to be reasonably assured and the services have been delivered.

Research and Development Expenses

The Company charges all research and development expenses to operations as incurred.

Advertising Expenses

The Company charges all advertising expenses to operations as incurred. For the three months ended December 31, 2016 and 2015 advertising expenses were \$0 and \$48,400 respectively.

Stock-Based Compensation

The Company has adopted ASC 718-20 and related interpretations which establish the accounting for equity instruments exchanged for employee services. Under ASC 718-20, share-based compensation cost to option grantee, being employees, directors and consultants, and is measured at the grant date based on the calculated fair value of the award. The expense is recognized over the option grantees' requisite service period, generally the vesting period of the award.

Income Taxes

The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are recorded, when necessary, to reduce deferred tax assets to the amount expected to be realized.

As a result of the implementation of certain provisions of ASC 740, *Income Taxes*, which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. ASC 740 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. The Company adopted the provisions of ASC 740 and have analyzed filing positions in each of the federal and state jurisdictions where required to file income tax returns, as well as all open tax years in these jurisdictions. We have identified the U.S. Federal and California as our "major" tax jurisdictions. Generally, we remain subject to Internal Revenue Service examination of our 2011 through 2015 U.S. federal income tax returns, and remain subject to California Franchise Tax Board examination of our 2011 through 2015 California Franchise Tax Returns. However, we have certain tax attribute carryforwards which will remain subject to review and adjustment by the relevant tax authorities until the statute of limitations closes with respect to the year in which such attributes are utilized.

We believe that our income tax filing positions and deductions will be sustained on audit and do not anticipate any adjustments that will result in a material change to our financial position. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to ASC 740. In addition, we did not record a cumulative effect adjustment related to the adoption of ASC 740. Our policy for recording interest and penalties associated with income-based tax audits is to record such items as a component of income taxes.

Comprehensive Income (Loss)

ASC 220-10 requires disclosure of all components of comprehensive income (loss) on an annual and interim basis. Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. The Company's comprehensive income (loss) is the same as its reported net income (loss) for the three months ended December 31, 2016 and 2015.

Earnings (Loss) per Share

Basic earnings (loss) per share are computed by dividing income (loss) available to common stockholders by the weighted average common shares outstanding during the period. Diluted earnings (loss) per share takes into account the potential dilution that could occur if securities or other contracts to issue Common Stock were exercised and converted into Common Stock.

Recent Accounting Pronouncements

Apart from the below-mentioned recent accounting pronouncements, there are no new accounting pronouncements that are currently applicable to the Company.

3. STOCKHOLDERS' EQUITY

Common and Preferred Stock

At the Company's annual stockholders meeting held on October 28, 2015, ("2015 Stockholders Meeting") stockholders approved to amend the Company's Articles of Incorporation to increase the number of shares of Common Stock authorized for issuance from 180,000,000 to 500,000,000 shares.

Also at our 2015 Stockholder Meeting, our stockholders approved an amendment to amend the Company's Charter for the purposes of effecting a reverse stock-split of our Common Stock at a later time and at any time until the next meeting of the Company's stockholders which are entitled to vote on such actions, by a ratio of not less than 1-for-10 and not more than 1-for-200, and to authorize the Board of Directors ("Board") to determine, at its discretion, the timing of the amendment and the specific ratio of the reverse stock-split. On August 24, 2016, the Board approved a 1-for-200 reverse stock-split which was effected on September 21, 2016.

On September 20, 2016, the Company announced that on September 21, 2016 it had filed a Certificate of Amendment to its Amended and Restated Certificate of Incorporation (the "Amendment") to (i) effect a 1-for-200 reverse stock-split ("reverse split") of its common stock, par value \$0.001 per share (the "Common Stock"), effective at 8:00 a.m. Eastern Time on September 21, 2016 (the "Effective Time"). Because the Amendment did not reduce the number of authorized shares of Common Stock, the effect of the Amendment was to increase the number of shares of Common Stock available for issuance relative to the number of shares issued and outstanding.

At the Effective Time, immediately and without further action by the Company's stockholders, every 200 shares of the Company's Common Stock issued and outstanding immediately prior to the Effective Time were automatically combined into one share of Common Stock. In the event the reverse split left a stockholder with a fraction of a share, the number of shares due to that stockholder was rounded up. Further, any options, warrants and rights outstanding as of the Effective Time that were subject to adjustment were adjusted in accordance with the terms thereof. These adjustments included, without limitation, changes to the number of shares of Common Stock that would be obtained upon exercise or conversion of such securities, and changes to the applicable exercise or purchase price.

As of December 31, 2016, the Company is authorized to issue 515,000,000 shares of stock, of which 500,000,000 are Common Stock; the remaining 15,000,000 shares, with a par value of \$0.001 per shares are blank-check preferred stock which the Board is expressly authorized to issue without stockholder approval, for one or more series of preferred stock and, with respect to each such series, to fix the number of shares constituting such series and the designation of such series, the voting powers, if any, of the shares of such series, and the preferences and relative, participating, optional or other special rights, if any, and any qualifications, limitations or restrictions thereof, of the shares of such series. The powers, preferences and relative, participating, optional and other special rights of each series of preferred stock, and the qualifications, limitations or restrictions thereof, if any, may differ from those of any and all other series at any time outstanding.

As of December 31, 2016, 2,261,061 shares of Common Stock were issued and outstanding. No shares of preferred stock were issued or outstanding.

On January 15, 2016, the Company engaged Dian Griesel International (DGI) for a 12 month long consulting agreement to provide public and investor relations services. As an origination fee for the agreement, the Board approved the issuance of 1,500 shares of common stock to Ms. Griesel on January 15, 2016. The aggregate value of these shares on the date of grant was \$6,900. The agreement with DGI was cancelled in May, 2016.

These shares were valued at \$5.10 per share, the closing price of the shares on the date of grant, and were valued in aggregate at \$51,000. 50% of the value was expensed on the date of grant and remaining 50%, \$25,500, was booked as a prepaid expense and is being amortized evenly over the twelve month vesting period. 5. LOSS PER SHARE

In accordance with ASC 260-10 (formerly SFAS 128, "Computation of Earnings Per Share"), basic net income (loss) per share is computed by dividing the net income (loss) to common stockholders for the period by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing the net income (loss) for the period by the weighted average number of common and dilutive common equivalent shares outstanding during the period. For the three-month periods ended December 31, 2016 and 2015, the Company has excluded all common equivalent shares from the calculation of diluted net loss per share as such securities are anti-dilutive.

The investor, John Pappajohn, is a member of the Company's Board.

The Aspire Capital Equity Line

On December 6, 2016, the Company, entered into the Purchase Agreement with Aspire Capital, which provides that, upon the terms and subject to the conditions and limitations set forth therein, Aspire is committed to purchase up to an aggregate of \$10.0 million of shares of Common Stock over the 30-month term of the Purchase Agreement. Concurrently with entering into the Purchase Agreement, the Company also entered into the Registration Rights Agreement, pursuant to which the Company maintains an effective registration statement registering the sale of the shares of Common Stock that have been and may be issued to Aspire Capital under the Purchase Agreement. Such registration statement, registering 1,320,000 shares was filed with the SEC and declared effective on February 10, 2016. With this effective registration statement, the Company may now sell Common Stock to Aspire Capital and draw down on the \$10.0 million equity line. See *Note 1, Nature of Operations—“Aspire Capital Equity Line”*, for additional detail. The Company is subject to additional risks. Our risk factors are described under the heading "Risk Factors" in Part I Item 1A and elsewhere in our Annual Report on Form 10-K and in other reports we file with the SEC.

Overview

MYnd Analytics, Inc. (the “Company”), is a predictive analytics company that has developed a decision support tool to help physicians reduce trial and error treatment in mental health and provide more personalized care to patients. The Company provides objective clinical decision support to healthcare providers for the personalized treatment of behavioral disorders, including depression, anxiety, bipolar disorder, post-traumatic stress disorder (“PTSD”) and other non-psychotic disorders. The Company uses its proprietary neurometric platform, PEER Online, to generate Psychiatric EEG Evaluation Registry (“PEER”) Reports to predict the likelihood of response by an individual to a range of medications prescribed for the treatment of behavioral disorders. We will continue to be focused on military personnel and their family members who are suffering from depression, PTSD and mild traumatic brain injury (“mTBI”) through the military and veterans, and Canadian Armed Forces, expand commercially through the payer and self-insured markets, multi-physician and multi-practice provider groups as well as direct to consumer sales and seek to expand our data base in younger adults and adolescents.

Working Capital

If we are unable to pay our obligations as they become due, and we are in arrears on paying certain of our creditors, and if we are not able to access our below-mentioned Aspire Capital Equity Line (*see Private Placements*) or raise additional funds within the next two to three months, or find additional sources of funds and/or reach accommodations with certain of our creditors, we will likely be required to cease our operations.

Since our inception, we have never been profitable and we have generated significant net losses. As of December 31, 2016, we had an accumulated deficit of approximately \$70.0 million; at our fiscal year ended September 30, 2016, our accumulated deficit was \$68.3 million and as of December 31, 2015, we had an accumulated deficit of approximately \$66.0 million. We incurred operating losses of \$1.4 million and \$0.6 million for the three-month periods ended December 31, 2016 and 2015, respectively, and incurred net losses of \$1.5 million and \$3.5 million for those respective periods. Large, non-cash, accounting transactions significantly impacted the net losses for the 2015 quarter.

For the quarter ended December 31, 2015, our net loss was exacerbated by other non-cash expense charges in the aggregate amount of \$2.8 million, largely as a result of accounting for finance expenses and the extinguishment of debt resulting from the amendment of the conversion terms of our convertible notes payable. For the present quarter ended December 31, 2016, other expenses were a more moderate at \$26,100, being largely non-cash financing expenses.

Assuming we are able to continue our operations, we expect our net losses to continue for at least the next 18 to 24 months. We anticipate that a substantial portion of any capital resources and efforts would be focused on conducting our clinical trials, the scale-up of our commercial sales organization, further research, product development and other general corporate purposes, including accrued but unpaid expenses. We also anticipate that some future research and development projects would be funded by grants or third-party sponsorship, along with funding by the Company.

As of December 31, 2016, our current assets of approximately \$2.37 million exceeded our current liabilities of approximately \$1.68 million by approximately \$0.69 million. Whereas, at December 31, 2015, our current liabilities of \$1.64 million exceeded our current assets of \$0.91 million by \$0.73 million, and at our fiscal year end, September 31, 2016, our current liabilities of \$1.54 million also exceeded our current assets of \$1.21 million by \$0.33 million. During three-month period ended December 31, 2016, we raised gross cash proceeds of \$1.5 million from private placements of Common Stock at \$6.25 per share. In addition, from December 31, 2016 through the date of this filing, we raised an additional \$200,000 from a private placement of Common Stock at \$6.25 per share. For details of these financings see "*Private Placement Transactions—Private Placement of Common Stock*" below.

On December 6, 2016, the Company, entered into a common stock purchase agreement (the "Purchase Agreement") with Aspire Capital Fund, LLC ("Aspire Capital") which provides that, upon the terms and subject to the conditions and limitations set forth therein, Aspire Capital is committed to purchase up to an aggregate of \$10.0 million of shares of the Company's common stock over the 30-month term of the Purchase Agreement. For details of the Purchase Agreement financing see "*Private Placement Transactions—The Aspire Capital Equity Line*" below.

If we are unable to generate enough working capital from our current financing agreement with Aspire Capital when needed or to secure additional sources of funding, including revenue, strategic partnerships or investors, it may be necessary to significantly reduce our current rate of spending, which may include a reduction in our operations, pilot programs and commercialization efforts. These events could prevent us from successfully executing our operating plan.

We will need additional funding to conduct our planned clinical trials and to conduct marketing campaigns to significantly increase the demand for our PEER Online services. We are actively exploring additional sources of capital. However, we cannot offer assurances that additional funding will be available on acceptable terms, or at all. Even if we were to raise additional funds, any additional equity funding may result in significant dilution to existing stockholders, and, if we incur additional debt financing, a substantial additional portion of our operating cash flow may be dedicated to the payment of principal and interest on such indebtedness, thus limiting the funds available for our business activities. If adequate funds are not available, it will likely force us to cease operations or would otherwise have a material adverse effect on our business, financial condition and/or results of operations.

The Aspire Capital Equity Line

On December 6, 2016, the Company, entered into a common stock Purchase Agreement with Aspire Capital which is committed to purchase up to an aggregate of \$10.0 million of shares of Common Stock over the 30-month term of the Purchase Agreement which began on February 10, 2017. Concurrent with entering into the Purchase Agreement, the Company also entered into a registration rights agreement with Aspire Capital (the “Registration Rights Agreement”), pursuant to which the Company maintains an effective registration statement registering the sale of the shares of Common Stock that have been and may be issued to Aspire Capital under the Purchase Agreement.

Under the Purchase Agreement, upon the terms and subject to the conditions and limitations set forth therein, on any trading day selected by the Company on which the closing sale price of its Common Stock is equal to or greater than \$0.50 per share, the Company has the right, in its sole discretion, to present Aspire Capital with a purchase notice, directing Aspire Capital (as principal) to purchase up to 50,000 shares of Common Stock per business day, up to \$10.0 million of the Company's common stock in the aggregate at a per share purchase price equal to the lesser of:

- c) the lowest sale price of Common Stock on the purchase date; or
- d) the arithmetic average of the three (3) lowest closing sale prices for Common Stock during the twelve (12) consecutive trading days ending on the trading day immediately preceding the purchase date.

In addition, on any date on which the Company submits a purchase notice to Aspire Capital in an amount equal to 50,000 shares and the closing sale price of the Company's stock is greater than \$0.50 per share, the Company also has the right, in its sole discretion, to present Aspire Capital with a volume-weighted average price purchase notice (each, a “VWAP Purchase Notice”) directing Aspire Capital to purchase an amount of stock equal to up to 30% of the aggregate shares of Common Stock traded on its principal market on the next trading day (the “VWAP Purchase Date”), subject to a maximum number of shares the Company may determine. The purchase price will be adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the period(s) used to compute the Purchase Price. The Company may deliver multiple Purchase Notices and VWAP Purchase Notices to Aspire Capital from time to time during the term of the Purchase Agreement, so long as the most recent purchase has been completed.

The Purchase Agreement provides that the Company and Aspire Capital will not effect any sales under the Purchase Agreement on any purchase date where the closing sale price of the Company's common stock is less than \$0.50. There are no trading volume requirements or restrictions under the Purchase Agreement, and the Company will control the timing and amount of sales of Common Stock to Aspire Capital. Aspire Capital has no right to require any sales by the Company, but is obligated to make purchases from the Company as directed by the Company in accordance with the Purchase Agreement. There are no limitations on use of proceeds, financial or business covenants, restrictions on future fundings, rights of first refusal, participation rights, penalties or liquidated damages in the Purchase Agreement. In consideration for entering into the Purchase Agreement, concurrently with the execution of the Purchase Agreement, the Company issued to Aspire Capital 80,000 shares of Common Stock (the “Commitment Shares”). The Purchase Agreement may be terminated by the Company at any time, at its discretion, without any cost to the Company. Aspire Capital has agreed that neither it nor any of its agents, representatives and affiliates shall engage in any direct or indirect short-selling or hedging of Common Stock during any time prior to the termination of the Purchase Agreement. Any proceeds from the Company receives under the Purchase Agreement are expected to be used for working capital and general corporate purposes.

The issuance of the Commitment Shares and all other shares of Common Stock that may be issued from time to time to Aspire Capital under the Purchase Agreement are exempt from registration under the Securities Act, pursuant to the exemption for transactions by an issuer not involving any public offering under Section 4(a)(2) of the Securities Act.

Financial Operations Overview

Critical Accounting Policies and Significant Judgments and Estimates

This management’s discussion and analysis of financial condition and results of operations is based on our unaudited condensed consolidated financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these unaudited condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities and expenses and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as revenues and expenses during the reporting periods. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on historical experience and on various other factors we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results could therefore differ materially from those estimates under different assumptions or conditions.

Our significant accounting policies are described in Note 2 to our unaudited condensed consolidated financial statements included elsewhere in this report. We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our unaudited condensed consolidated financial statements.

Revenue Recognition

We have generated limited revenues since our inception. Revenues for our Neurometric Service product are recognized when a PEER Report is delivered to a Client-Physician. In cases where we bill insurance payers or Medicare/Medicaid, we only recognize revenues on the receipt of payment.

Stock-based Compensation Expense

Stock-based compensation expense, which is a non-cash charge, results from stock option grants. Compensation cost is measured at the grant date based on the calculated fair value of the award. We recognize stock-based compensation expense on a straight-line basis over the vesting period of the underlying option. The amount of stock-based compensation expense expected to be amortized in future periods may decrease if unvested options are subsequently cancelled or may increase if future option grants are made.

Long-Lived Assets and Intangible Assets

Property and equipment and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the assets may not be recoverable. If the Company determines that the carrying value of the asset is not recoverable, a permanent impairment charge is recorded for the amount by which the carrying value of the long-lived or intangible asset exceeds its fair value. Intangible assets with finite lives are amortized on a straight-line basis over their useful lives of ten years.

Results of Operations for the three months ended December 31, 2016 and 2015

Our operations consist solely of our Neurometric Services business which is focused on the delivery of PEER Reports that enable psychiatrists and other physicians/prescribers to make more informed, patient-specific decisions when treating individual patients for behavioral (psychiatric and/or addictive) disorders based on the patient's own physiology.

The following table presents consolidated statement of operations data for each of the periods indicated as a percentage of revenues.

Neurometric Service Revenues	\$ 22,200	\$ 24,700	(10)%

The number total number of PEER Reports delivered for the three-month period ended December 31, 2016, was 58 reports compared to 65 for the same period in the prior year. The reduction was largely the result of the retirement of one of our highest utilizing physicians. Of the 58 reports delivered during the 2016 period, 41 reports were paid for by patients or by insurance payers for an average revenue of \$504 per PEER Report, which also included any ancillary services such as the recording of the EEG and its conversion from an analog EEG to a digital QEEG (Quantitative EEG). For the same period in 2015, 60 reports were paid for by patients or an insurance payer for an average of \$424 per PEER Report. The total number of free PEER Reports, processed were 17 and 5 reports for the respective quarters ended December 31, 2016 and 2015. These free PEER Reports are used for training, database-enhancement and compassionate-use purposes.

Cost of Revenues

	December 31,		
	2016	2015	
Neurometric Services	\$ 3,700	\$ 1,200	208%

The cost of Neurometric Services revenues consist of consulting costs, as follows:

Key Expense Categories	Three months ended		
	December 31,		
	2016	2015	Change
(1) Consulting fees	3,700	1,200	2,500
Total Costs of Revenues	\$ 3,700	\$ 1,200	\$ 2,500

Consulting costs associated with the processing of second generation PEER Reports are between \$10 and \$100 per report. We expect the cost of revenues to decrease as a percentage of revenues as we improve our operating efficiency and increase the automation of certain processes.

Comparing the three months ended December 31, 2016 with the corresponding period in 2015:

(1) Consulting fees increased for the quarter ended December 31, 2016 as we are using more consultants to process EEG readings for patients.

Comparing the three months ended December 31, 2016 with the corresponding period in 2015:

- (1) Salary and benefit costs, which are solely comprised of stock-based compensation, were reduced during the 2016 period as some options were fully amortized during the period and therefore reduced the amortization expense load within 2016 period; and
- (2) Consulting costs increased in the current period as we have a new consulting agreement with our Medical Officer for the medical monitoring of the clinical trials, the training of clinical trial investigators and new PEER Online users. Additionally, our Medical Officer is also advising the Company on clinical trial design and product development. We had also entered into a consulting agreement with a second physician to help with the training of clinical trial investigators on the PEER Report so that they can participate in the SMART-MD trial, and in consulting with other physicians in the use and interpretation of the PEER Report; and
- (3) Other miscellaneous costs which for the 2016 and 2015 periods remained the same.

(4) Other miscellaneous costs	17,700	9,900	7,800
Total Product Development	\$ 295,300	\$ 123,400	\$ 171,900

Comparing the three months ended December 31, 2016 with the corresponding period in 2015:

- (1) Salaries and benefits increased by a net \$96,900 in the quarter ended December 31, 2016: \$88,200 was related to stock-based compensation of new stock options which were granted in April 2016 and October 2016; the balance of \$8,700 was largely related to a vacation expense adjustment. There was no change in employee salary; and
- (2) Consulting fees increased by \$48,700 for the quarter ended December 31, 2016: the increase was due to consulting resources used for the Canadian Armed Forces Study, the preparation of the SMART-MD clinical trial, and work associated with our quality systems. Consulting resources for the 2015 quarter were minimal due to the reduced level of activity at that time; and
- (3) System development and maintenance costs increased in the quarter ended December 31, 2016, as we used more time with our contract system programmers for system maintenance and the timing for general system enhancements; and
- (4) Conference and travel costs increased by \$7,400 due to multiple trips by our personnel to Ottawa to work on the Canadian Armed Forces Trial and to initiate the SMART-MD trial with Carolina Partners; and
- (5) Other miscellaneous expenses increased by \$7,800 in the quarter ended December 31, 2016, partly due to the renewal of the State of California Medical Device Manufacturing License and monthly web-hosting fees for our patient-reported-outcomes application which we developed.

	2016	2015	
Neurometric Services	\$ 105,700	\$ 123,200	(14)%

Sales and marketing expenses associated with our Neurometric Services business consist primarily of payroll and benefit costs, including stock-based compensation, advertising and marketing, consulting fees and miscellaneous expenses. The reason for the change in these expenses is discussed below.

Key Expense Categories	Three months ended		
	December 31,		
	2016	2015	Change
(1) Salaries and benefit costs	\$ 48,900	\$ 35,200	\$ 13,700

(3) Advertising and marketing costs	-	48,400	(48,400)
(4) Other miscellaneous costs	11,600	6,500	5,100
Total Sales and marketing	\$ 105,700	\$ 123,200	\$ (17,500)

Comparing the three months ended December 31, 2016 with the corresponding period in 2015:

- (1) Salaries and benefits for the quarter ended December 31, 2016, increased by \$13,700 largely as a result of the amortization of stock option grants issued to personnel in April 2016 and October 2016; and
- (2) Consulting fees for the quarter ended December 31, 2016, increased by \$12,100 as we engaged a consulting firm to assist with the configuration of patient-lead automation technology. The balance of the expenditure is associated with our engagement of Decision Calculus Associates (“DCA”) to lead our marketing efforts. The DCA fees have remained consistent for the 2016 and 2015 periods; and

- (3) Advertising and marketing expenses ceased for the quarter ended December 31, 2016, as we put our social media advertising in the Southern California market on hold, pending getting a Standing Physicians order in place, which was completed following our entry into an agreement with Hooper Holmes Inc. Having this Standing Physicians order in place will greatly facilitate the processing of PEER Reports for patients who respond to our social media advertising and express an interest in getting a PEER Report; and
- (4) Miscellaneous expenditures increased for the quarter ended December 31, 2016, by approximately \$4,500 as we subscribed for a lead-automation application to assist with the efficient handling of future leads generated by our social media advertising campaign.

	Three months ended December 31,		Percent Change
	2016	2015	
Neurometric Services	\$ 1,021,800	\$ 378,900	170%

General and administrative expenses for our Neurometric Services business are largely comprised of payroll and benefit costs, including stock-based compensation, legal fees, other professional and consulting fees, patent costs, investor relations expenses, general administrative and occupancy costs, dues and subscriptions, conference, travel and miscellaneous costs. The reason for the change in these expenses is discussed below.

Key Expense Categories	Three months ended December 31,		
	2016	2015	Change
(1) Salaries and benefit costs	\$ 528,400	\$ 175,600	\$ 352,800

Total General and administrative costs	\$ 1,021,800	\$ 378,900	\$ 642,900

Comparing the three months ended December 31, 2016 with the corresponding period in 2015:

- (1) Salaries and benefit expenses increased by \$352,800 for the quarter ended December 31, 2016; \$143,400 was related to the amortization of stock options granted in September 2016 and October 2016; \$216,400 related to the amortization of Common Stock grants to Directors and Officers which are being amortized over a 12-month period; the remaining balance was due to a reduction in health insurance and payroll costs. All salaries remained identical for the two periods; and
- (2) Legal fees showed a net increase of \$181,800 for the quarter ended December 31, 2016: of this increase \$87,900 related to legal fees associated with our fund raising activities; \$47,700 related to reverse stock split corporate action; \$36,300 related to legal fees for the review of the Aspire Capital Equity Purchase Agreement; \$6,000 related to SEC filing fees for two Registration Statements, and the balance was related to specialty healthcare legal advice; and
- (3) Other professional and consulting fees increased for the December 31, 2016 period by \$5,500. The increase was largely due to the timing of bills related to our tax preparation and filing work; and
- (4) Patent costs increased by \$7,000 due to the timing and volume of patent applications, maintenance costs, review of contracts with respect to the protection of intellectual property and work associated with new provisional patents; and
- (5) Marketing and investor relations costs increased by \$54,200 of which \$8,000 was for two months of service fees on a six-month contract for investor relations services and \$45,000 was for the accrual of two months of shares to be issued at 2,500 shares per month according to said investor relations contract. We issued 7,500 shares, three-month's worth, in January 2017; and
- (6) Conference and travel costs increased by \$13,300 for the 2016 period of which \$4,500 was to attend the LD Micro investor conference. The balance was due to increased travel by our CEO traveled for meetings with investors, healthcare payers and providers on the East Coast; and
- (7) Dues and subscription cost increased by \$9,400 for 2016 period due to increased cost of the Salesforce applications, other web-based applications and an increase in listing fees on the OTC.QB platform; and

- (8) General administrative and occupancy expenses increased by \$18,900 in the quarter ended December 31, 2016, largely due to printing costs associated with the annual meeting and amortization of our Patient Reported Outcomes application which was capitalized during development as an intangible asset and is now being amortized over a 36-month period.

Other Expenses

	Three months ended December 31,		Percent Change
	2016	2015	
Neurometric Services expense, net	\$ (26,100)	\$ (2,826,300)	(99)%

For the three months ended December 31, 2016 and 2015 net non-operating Other Expense for Neurometric Services, changed for the following reasons:

- For the quarter ended December 31, 2016, we incurred finance fees of \$23,600 related to the Aspire Capital Equity Purchase Agreement and \$2,500 in cash interest charges. For the same quarter in 2015, we incurred non-cash interest charges totaling \$499,500 of which \$38,900 was accrued interest on our convertible promissory notes at 5% per annum; the balance of \$460,600 was comprised of warrant discount amortization and warrant and note conversion derivative liability charges; only \$700 was for actual net interest paid in cash during the period; and
- Under ASC 815, all derivative instruments are required to be measured periodically at fair value and the resultant change in fair value of non-hedging derivative instruments are to be recognized in current earnings. For the current 2016 quarter, no charges were incurred as we had no derivative liabilities during the period. For the 2015 quarter, we revalued our then existing derivative liabilities for the beneficial conversion feature of the convertible promissory notes which resulted in a net non-cash gain on derivative liabilities of \$11,300; and
- For the quarter ended December 31, 2015, we incurred a non-cash loss of \$2,337,400 as a result of accounting for the extinguishment of debt. The debt extinguishment accounting was precipitated by the changes in the fair value of existing notes pursuant to the Amended Note & Warrant Purchase Agreement which extended the maturity date of the existing Notes and provided 100% warrant coverage of the shares underlying the Notes. No similar transaction occurred in the quarter ended December 31, 2016.

Net Loss

	Three months ended December 31,		Percent Change
	2016	2015	
Neurometric Services net loss	\$ (1,463,800)	\$ (3,451,300)	(58)%

The net loss for our Neurometric Services business of \$1.5 million for the three months ended December 31, 2016, compared to the approximately \$3.5 million loss in the prior year is primarily due to the large non-cash accounting charges in our Other Expenses category described directly above.

The Company's operating loss of \$1.4 million for the three months ended December 31, 2016, is an increase of \$0.8 million from the \$0.6 million loss in the prior year. This additional operating loss is due largely due to the amortization of grants of common stock and options to directors, officers and staff. Additionally, increased legal fees associated financing activities, including the Aspire Capital Equity Purchase Agreement and corporate actions including the stock reverse split and the annual meeting.

Liquidity and Capital Resources

Since our inception, we have incurred significant losses and not been profitable. As of December 31, 2016, we had an accumulated deficit of approximately \$70.0 million; at December 31, 2015, our accumulated deficit was approximately \$66.0 million. We have not yet achieved profitability and anticipate that we will continue to incur net losses for the next 18 to 24 months. Our management expects that with our proposed clinical trials, sales and marketing and general and administrative costs, our expenditures will continue to grow and, as a result, we will need to generate significant product revenues to achieve profitability. We may never achieve profitability.

As of December 31, 2016, we had \$1.05 million in cash and cash equivalents and working capital of approximately \$0.68 million. This is compared to our cash position of \$0.82 million in cash and cash equivalents as of December 31, 2015, and a working capital deficit of \$0.74 million. The improvement in our working capital is partly due an increase in prepaid assets associated with the issuances of stock, and partly due to our increased cash on hand.

The Company has been funded through multiple rounds of private placements primarily from members of our Board of Directors or their affiliates. From September 22, 2014, through to August 11, 2016, we raised \$6 million of Notes. On September 19, 2016, pursuant to the Second Omnibus Amendment, the Company exercised a mandatory conversion right and, on September 21, 2016, (i) converted the entire outstanding principal balance of \$6,000,000, plus accrued interest of \$317,000, on all Notes into 1,263,406 shares of the Company's Common Stock at a conversion price of \$5.00 per share and (ii) cancelled all 600,000 Warrants issued in connection with the Notes.

On November 30, 2016, December 21 and 29 of 2016, the Company sold and issued an aggregate of 240,000 shares of its Common Stock, at a per share price of \$6.25, in private placements to a total of 11 accredited investors, for which it received gross cash proceeds of \$1,500,000. Three of the 11 accredited investors were affiliates who represented 40% of the cash proceeds as follows: Dr. Robin Smith, our Chairman of the Board purchased 16,000 shares for \$100,000; John Pappajohn, a member of the Board, purchased 48,000 shares for \$300,000; and the Tierney Family Trust of which our Board member, Thomas Tierney is a trustee, purchased 32,000 shares for \$200,000.

On December 6, 2016, the Company, entered into a Common Stock Purchase Agreement with Aspire Capital which provides that, upon the terms and subject to the conditions and limitations set forth therein, Aspire Capital is committed to purchase up to an aggregate of \$10.0 million of shares of the Company's common stock over the 30-month term of the Purchase Agreement. Aspire's obligation to make purchases under the Purchase Agreement is subject to, among other things, the Company's Registration Statement on Form S-1 being declared effective by the SEC, which occurred on February 10, 2017.

On February 10, 2017, the Company sold and issued an aggregate of 32,000 shares of its Common Stock, at a per share price of \$6.25, in a private placement pursuant to a Subscription Agreement to an accredited investor, for which it received gross cash proceeds of \$200,000. The investor, John Pappajohn, is member of the Company's Board.

The Company has been funded through multiple rounds of private placements, primarily from members of our Board or our affiliates. For details please refer to *Item 2. Private Placement Transactions* and *Notes 3, and 4 to the Unaudited Condensed Consolidated Financial Statements*.

Working Capital, Operating Capital and Capital Expenditure Requirements

As of December 31, 2016, we had approximately \$1.0 million in cash and \$10 million remaining available for stock sales under the terms of the Purchase Agreement with Aspire Capital, compared to \$0.3 million of cash as of September 30, 2016. We anticipate that future budget cash expenditures will be approximately \$5.75 million over the next twelve months for commercialization of our product, pilot projects, clinical trials and general operations.

Alternatively, if we decide to pursue a more aggressive plan, we will require additional sources of equity capital during the next twelve months to meet our working capital requirements. This assessment is based on current estimates and assumptions regarding our programs and business needs. Actual working capital requirements could differ materially from this above working capital projection. We may explore strategic opportunities including partnerships, licensing and acquisitions of other entities, assets or products.

Our ability to successfully raise sufficient funds through the sale of equity securities, when needed, is subject to many risks and uncertainties and even if we are successful, future equity issuances would result in dilution to our existing stockholders. Our risk factors are described under the heading "Risk Factors" in Part I Item 1A and elsewhere in our Annual Report on Form 10-K and in other reports we file with the SEC.

Our continued operating losses and limited capital have raised substantial doubt about our ability to continue as a going concern. However, assuming the Company continues to be able to access up to \$10 million through the sale of Common Stock to Aspire, upon the terms and subject to the conditions and limitations set forth in the Purchase Agreement, and in accordance with the Company's future estimated expenses based on its anticipated operations, the Company believes it has the means to meet its current obligations as they become due and to pay its creditors. *For more detail on the issuance of Common Stock to Aspire Capital, refer to Note 1. Nature of Operations of the Unaudited Condensed Consolidated Financial Statements.*

We expect to continue to incur operating losses in the next 18 to 24 months. However, we anticipate that our cash on hand, cash generated through our operations and access to the abovementioned Aspire equity line will be sufficient to fund our operations for more than one year. Management believes that as long as it has the ability to meaningfully access the Aspire equity line, adequate funds will be available and sufficient to facilitate our ability to commercialize our PEER Report, grow our business, and improve the financial condition and/or results of operations.

The amount of capital we will need to conduct our operations and the time at which we will require such capital may vary significantly depending upon a number of factors, such as:

- the amount and timing of costs we incur in connection with our clinical trials and product development activities, including enhancements to our PEER Online database and costs we incur to further validate the efficacy of our technology;
- the amount and timing of costs we incur in connection with the expansion of our commercial operations, including our sales and marketing efforts;

- whether we incur additional consulting and legal fees in our efforts in conducting Non-Significant Risk trials within FDA requirements, which will enable us to obtain a 510(k) clearance from the FDA; and
- if we expand our business by acquiring or investing in complimentary businesses.

If we are unable to generate enough working capital from our current financing agreement with Aspire Capital when needed or to secure additional sources of funding, including revenue, strategic partnerships or investors, it may be necessary to significantly reduce our current rate of spending, which may include a reduction in our operations, pilot programs and commercialization efforts. These events could prevent us from successfully executing our operating plan.

Sources of Liquidity

Since our inception, substantially all of our operations have been financed from equity and debt financings. Between September 2014, and August 2016 we have raised \$6.0 million through the private placement of secured convertible debt with an exercise price of \$5.00 per share of Common Stock. Of this funding \$5.1 million, or 85%, was provided by directors, an officer and affiliates of the Company.

For details of these financings please see Note 3 and Note 4 of the Notes to the Unaudited Condensed Consolidated Financial Statements.

On November 30, December 21 and December 29 of 2016, the Company sold and issued an aggregate of 240,000 shares of its Common Stock, at a per share price of \$6.25, in private placements to a total of 11 accredited investors, for which it received gross cash proceeds of \$1,500,000. Three of the 11 accredited investors were affiliates and represented 40% of the cash proceeds as follows: Dr. Robin Smith, our Chairman of the Board purchased 16,000 shares for \$100,000; John Pappajohn, a member of the Board, purchased 48,000 shares for \$300,000; and the Tierney Family Trust of which our Board member, Thomas Tierney is a trustee, purchased 32,000 shares for \$200,000.

On December 6, 2016, the Company, entered into a Common Stock Purchase Agreement with Aspire Capital which provides that, upon the terms and subject to the conditions and limitations set forth therein, Aspire Capital is committed to purchase up to an aggregate of \$10.0 million of shares of the Company's common stock over the 30-month term of the Purchase Agreement. Aspire's obligation to make purchases under the Purchase Agreement is subject to, among other things, the Company's Registration Statement on Form S-1 related thereto being declared effective by the SEC, which occurred on February 10, 2017.

On February 10, 2017, the Company sold and issued an aggregate of 32,000 shares of its Common Stock, at a per share price of \$6.25, in a private placement to an accredited investor, for which it received gross cash proceeds of \$200,000. The investor, John Pappajohn, is a member of the Board of the Company.

For details of these financings please see Note 3 of the Notes to the Unaudited Condensed Consolidated Financial Statements.

Cash on hand as of February 13, 2017 is \$820,000. As additional cash is needed for operations we may, from time to time, access the Aspire Capital equity line or raise funds through private placement transaction, whichever is more cost effective and available at the time.

Cash Flows

Net cash used in operating activities was \$765,800 for the quarter ended December 31, 2016, compared to \$607,500 for the same period in 2015. Of the net \$158,300 increase in cash used for operations between the two periods: in general net cash expenditures increased across the board including: consulting fees which increased by approximately \$72,000, system maintenance and development increased by \$18,000. These increases were partly offset by a reduction in advertising expenditures of \$48,000. The balance of the difference, \$116,000, was largely due to the pay-down of balances owed on legal fees and other payables.

During the quarter ended December 31, 2016, the Company spent \$3,700 in the purchase of computer equipment and expenditure on our Patient Reported Outcomes app. During the same period in 2015 the Company had no investing activities.

Financing activities for the quarter ended December 31, 2016, consisted of \$1.50 million in cash proceeds received from private placements of equity from 11 accredited investors, of which three are affiliated with the Company. For same period in 2015, financing activities were \$1.00 million raised from the private placements of Notes from two affiliated investors of the Company.

Income Taxes

Current and non-current deferred taxes have been recorded on a net basis in the accompanying balance sheet. As of September 30, 2016, the Company had Federal net operating loss carryforwards of approximately \$45.7 million and State net operating loss carryforwards of approximately \$34.1 million. Both the Federal and State net operating loss carryforwards will begin to expire in 2022 and 2017 respectively. Our ability to utilize net operating loss carryforwards may be limited in the event that a change in ownership, as defined in the Internal Revenue Code, occurs in the future. The Company has placed a valuation allowance against the deferred tax assets in excess of deferred tax liabilities due to the uncertainty surrounding the realization of such excess tax assets. Management periodically evaluates the recoverability of the deferred tax assets and the level of the valuation allowance. At such time as it is determined that it is more likely than not that the deferred tax assets are realizable, the valuation allowance will be reduced accordingly.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements or financing activities with special purpose entities.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Our management, including our principal executive officer (PEO) and principal financial officer (PFO), conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined by paragraph (e) of Exchange Act Rule 13a-15, as of December 31, 2016, the end of the period covered by this report. Based on this evaluation, our PEO and PFO concluded that our disclosure controls and procedures were effective as of December 31, 2016.

A “material weakness” is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

A “significant deficiency” is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of our financial reporting.

To the knowledge of our management, including our PEO and PFO, there were none of the aforementioned deficiencies leading to a misstatement of our results of operations for the three months ended December 31, 2016, or statement of financial position as of December 31, 2016.

Changes in Internal Control Over Financial Reporting

During the quarterly period ending December 31, 2016, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting .
